## Life's Golden Autumn

Birthdays come and birthdays go and with them comes the thought  
Of all the happy memories that the passing years have brought.

And looking back across the years it's a joy to reminisce  
For memory opens wide the door on a happy day like this.

And with a sweet nostalgia we longingly recall

The happy days of long ago that seem the best of all.

But time cannot be halted in its swift and endless flight

And age is sure to follow youth as day comes after night.

And once again it's proven that the restless brain of man

Is powerless to alter God's great unchanging plan.

But while our step grows slower and we grow more tired too

The soul goes soaring upward to realms untouched and new.

For growing older only means the spirit grows serene

And we behold things with our souls that our eyes have never seen.

And birthdays are but gateways to eternal life above

Where 'God's children' live forever in the beauty of His love.
