RECALL NOTICE! IMPORTANT!

This is due to a malfunction in the original prototype units, resulting in the reproduction of the same defect in all subsequent units. This defect has been technically termed, 'Sub sequential Internal Non-Morality,' or more commonly known as S-I-N, as it is primarily symptomized by loss of moral judgment. Some other symptoms are: (a) Loss of direction (b) Foul vocal emissions (c) Amnesia of origin (d) Lack of peace and joy (e) Selfish, or violent, behaviour (f) Depression or confusion in the mental component. The manufacturer, who is neither liable or at fault for this defect, is providing factory authorized repair and service, free of charge to correct this SIN defect, at numerous locations throughout the world. The number to call for the recall station in your area is: P-R-A-Y-E-R WARNING: Continuing to operate the human unit without correction, voids the manufacturer's warranty, exposing owner to dangers and problems too numerous to list.
