THE FEAST OF ST. VALENTINE

St Valentine was a bishop, and is thought to have been a physician. He was arrested for giving aid to Christian prisoners awaiting martyrdom, and while imprisoned he converted the jailer by restoring sight to the jailer's daughter.

Valentine also defied the emperor's orders and secretly married couples to spare the husbands from war.

It is for this reason that his feast day is associated with love.

St Valentine refused to deny Christ before the Emperor Claudius in the year 280 and won the jewelled crown of martyrdom by his faithful witness.

The feast of St. Valentine was first established in 496 by Pope Gelasius I

2023 WORLD DAY OF THE SICK Pope Francis message for the 2023 World Day of the Sick takes place this Saturday, 11 February, on the Feast of Our Lady of Lourdes. World Day of the Sick was established in 1993 by Pope John Paul II and a message is issued annually to commemorate the occasion. World Day of the Sick is a day of intense prayer for all who are suffering pain, infirmity and sickness. In this way the faithful express solidarity with those who suffer – this solidarity arises from our awareness of the mystery of suffering and its place in God's loving plan for every individual. Those who dedicate themselves to the world of health care enter the most intimate part of the individual, into his/her existence as a spiritual being. By caring for the sick and needy we bring the good news of the Gospel alive by offering an authentic sign of love that "the Kingdom of God is close at hand" (Mark 1: 15).

Wisdom:

"Though character may be shown in the big moments, it is in the small moments that it is made"
